How to play Hares

ANTI-KNIGHT SUDOKU

- 1 Every row, every column and every block holds each number once. A meadow with nine rows has nine columns and nine blocks of three by three; a six by six meadow has blocks of two rows by three columns.
- 2 Hares leap like a knight. Two burrows a knight's leap apart, two one way and one across, never hold the same number. The leap reaches over rows, columns and blocks alike.
- 3 In the harder meadows hares also refuse to sit next to the same number in any direction, corners included. Each puzzle says above it which rules are in force.
