Hedgehogs

100 Star Battle puzzles

Every puzzle has exactly one solution, and every one of them was checked by program before it was printed.

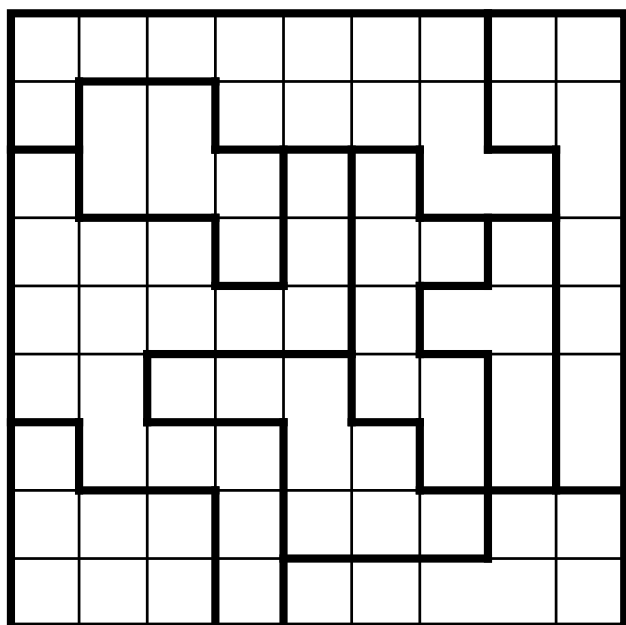

How to play Hedgehogs

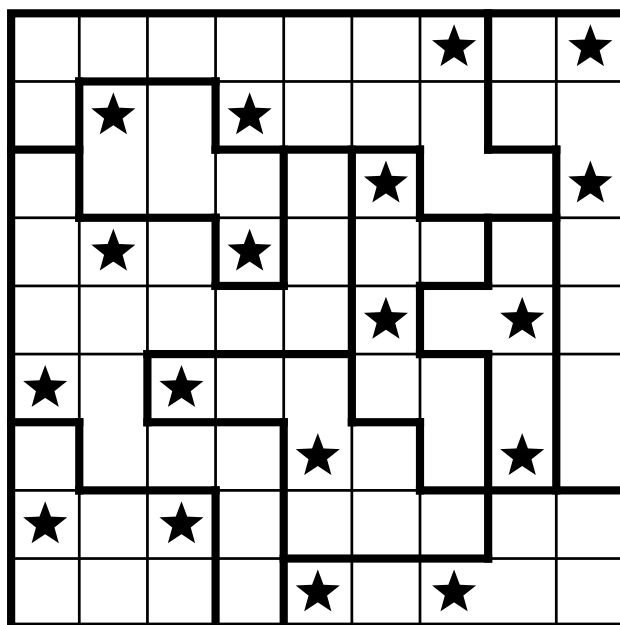

STAR BATTLE

- 1 Two hedgehogs go in every row, in every column and in every flowerbed. The flowerbeds are the outlined shapes, and a garden with eight rows has eight columns and eight flowerbeds, so sixteen hedgehogs in all.
- 2 No two hedgehogs may touch, not side by side and not diagonally. Every hedgehog keeps the eight cells around it empty.
- 3 Exactly one arrangement fits. Mark the cells you have ruled out however you like; only the hedgehogs count.
