

ARLING

Swans

100 Masyu puzzles

Every puzzle has exactly one solution, and every one of them was checked by program before it was printed.

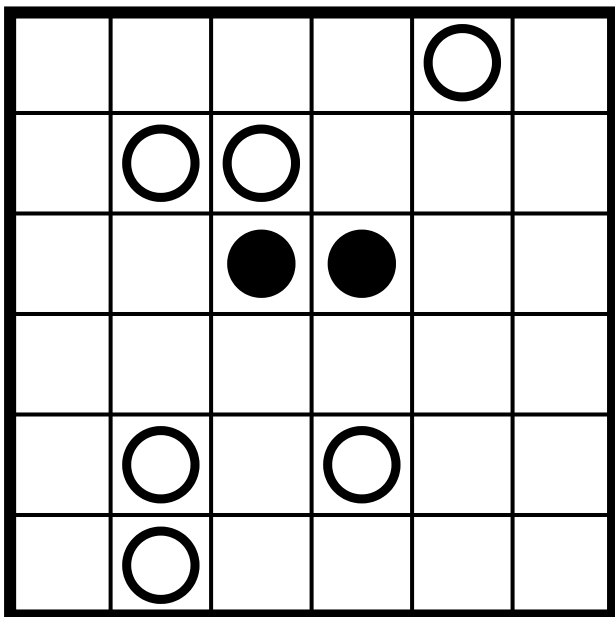

How to play Swans

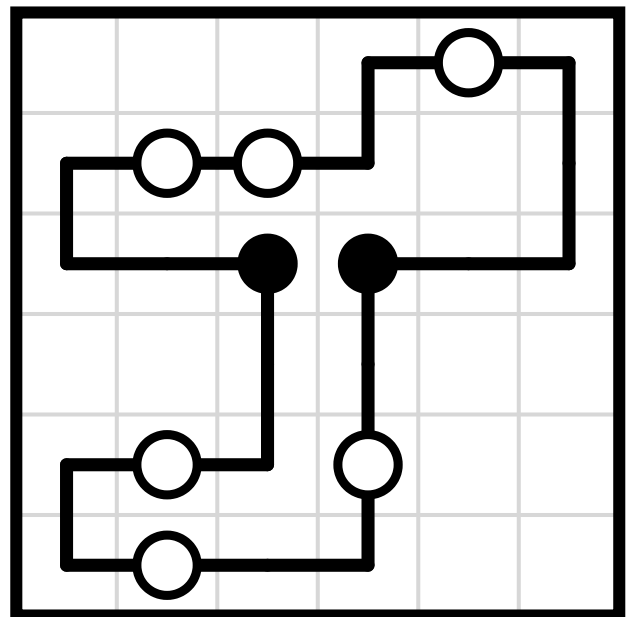

MASYU

- 1 Draw one loop through every swan. The loop runs from the middle of one cell to the middle of the next, up and down or left and right, never diagonally, and it never crosses itself, branches, or passes through the same cell twice.
- 2 A white swan means the loop goes straight through it and turns in the cell just before or just after. A black swan means the loop turns in that cell and goes straight through both neighbouring cells.
- 3 Cells with no swan may be left out of the loop altogether. Exactly one loop fits every swan.

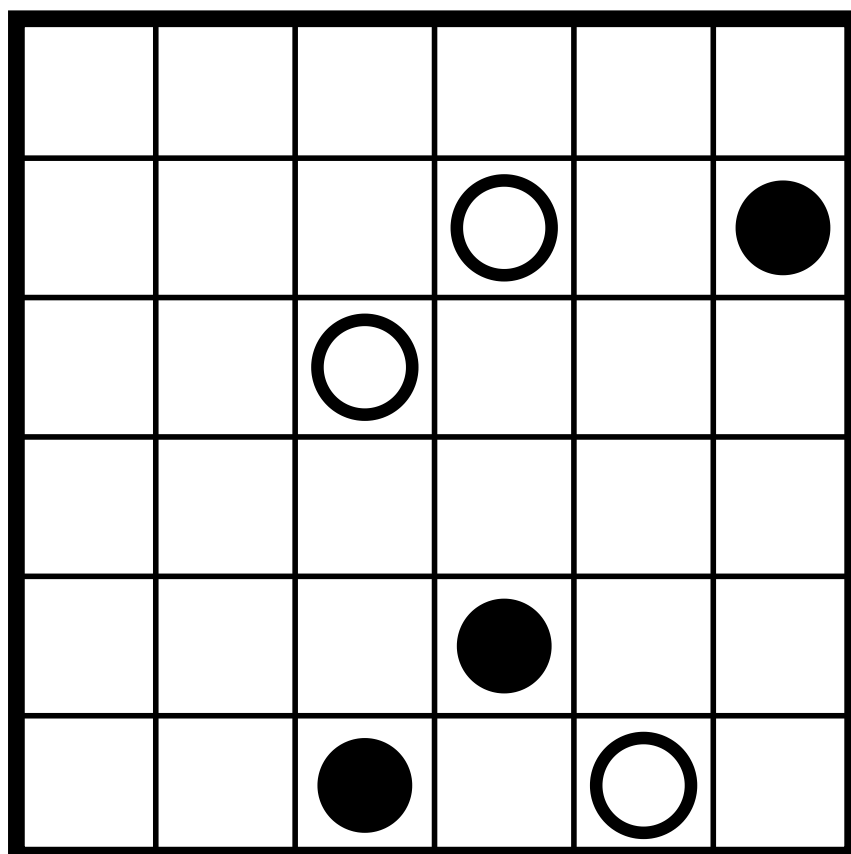

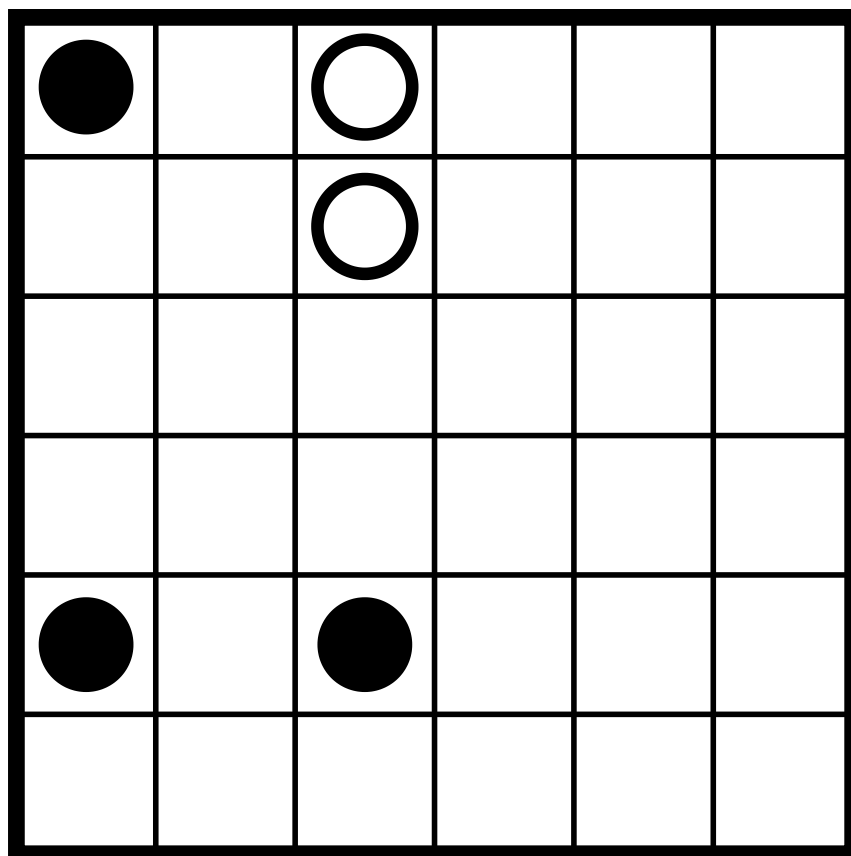

ONE WORKED EXAMPLE

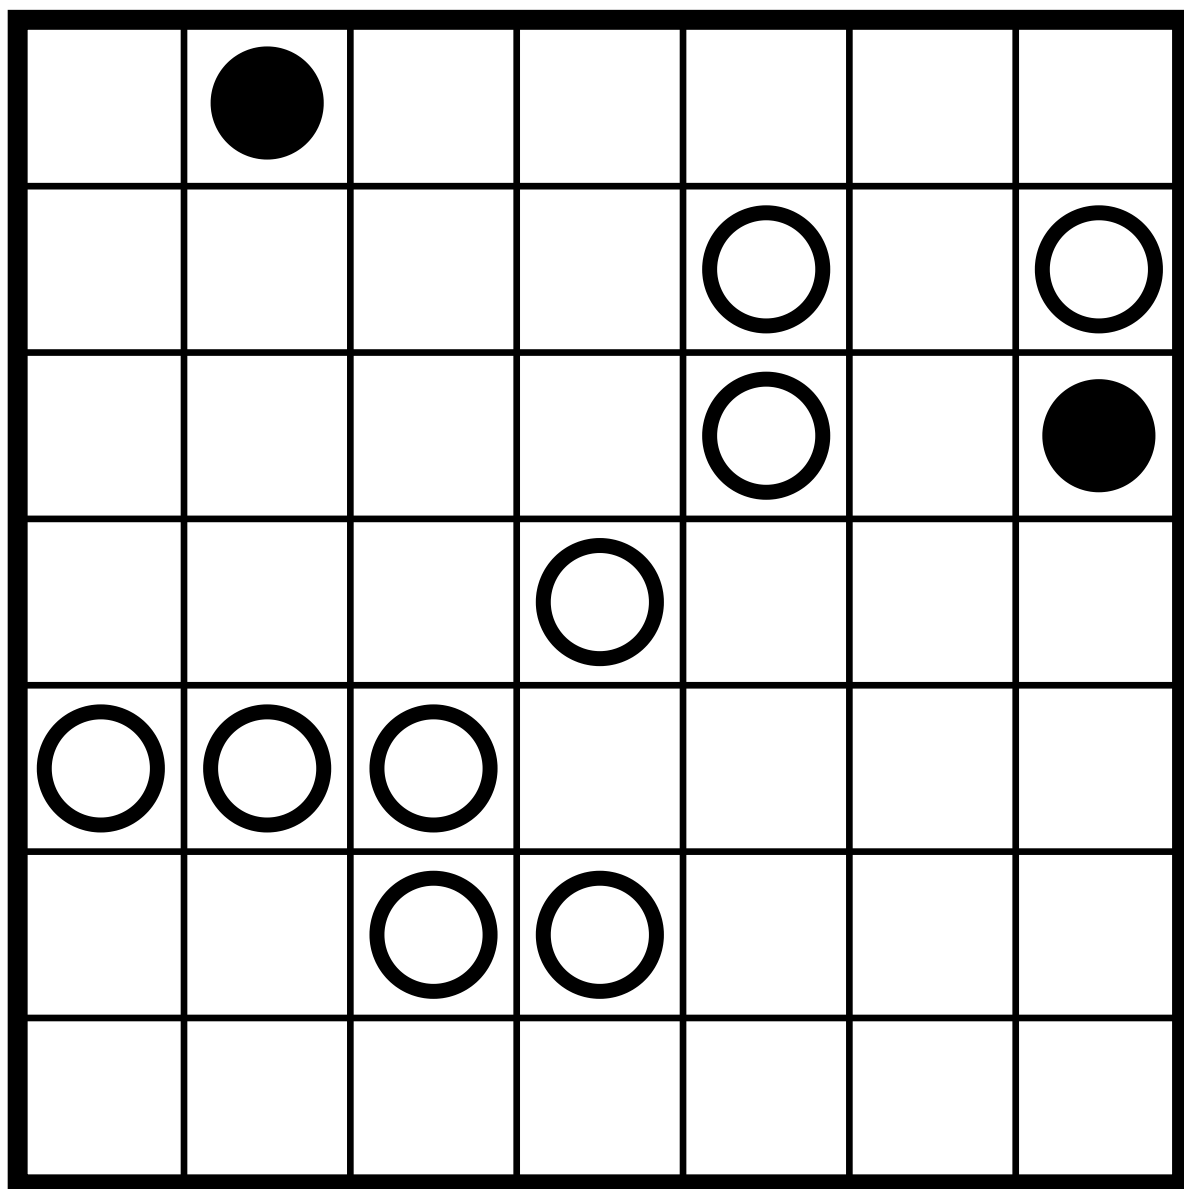

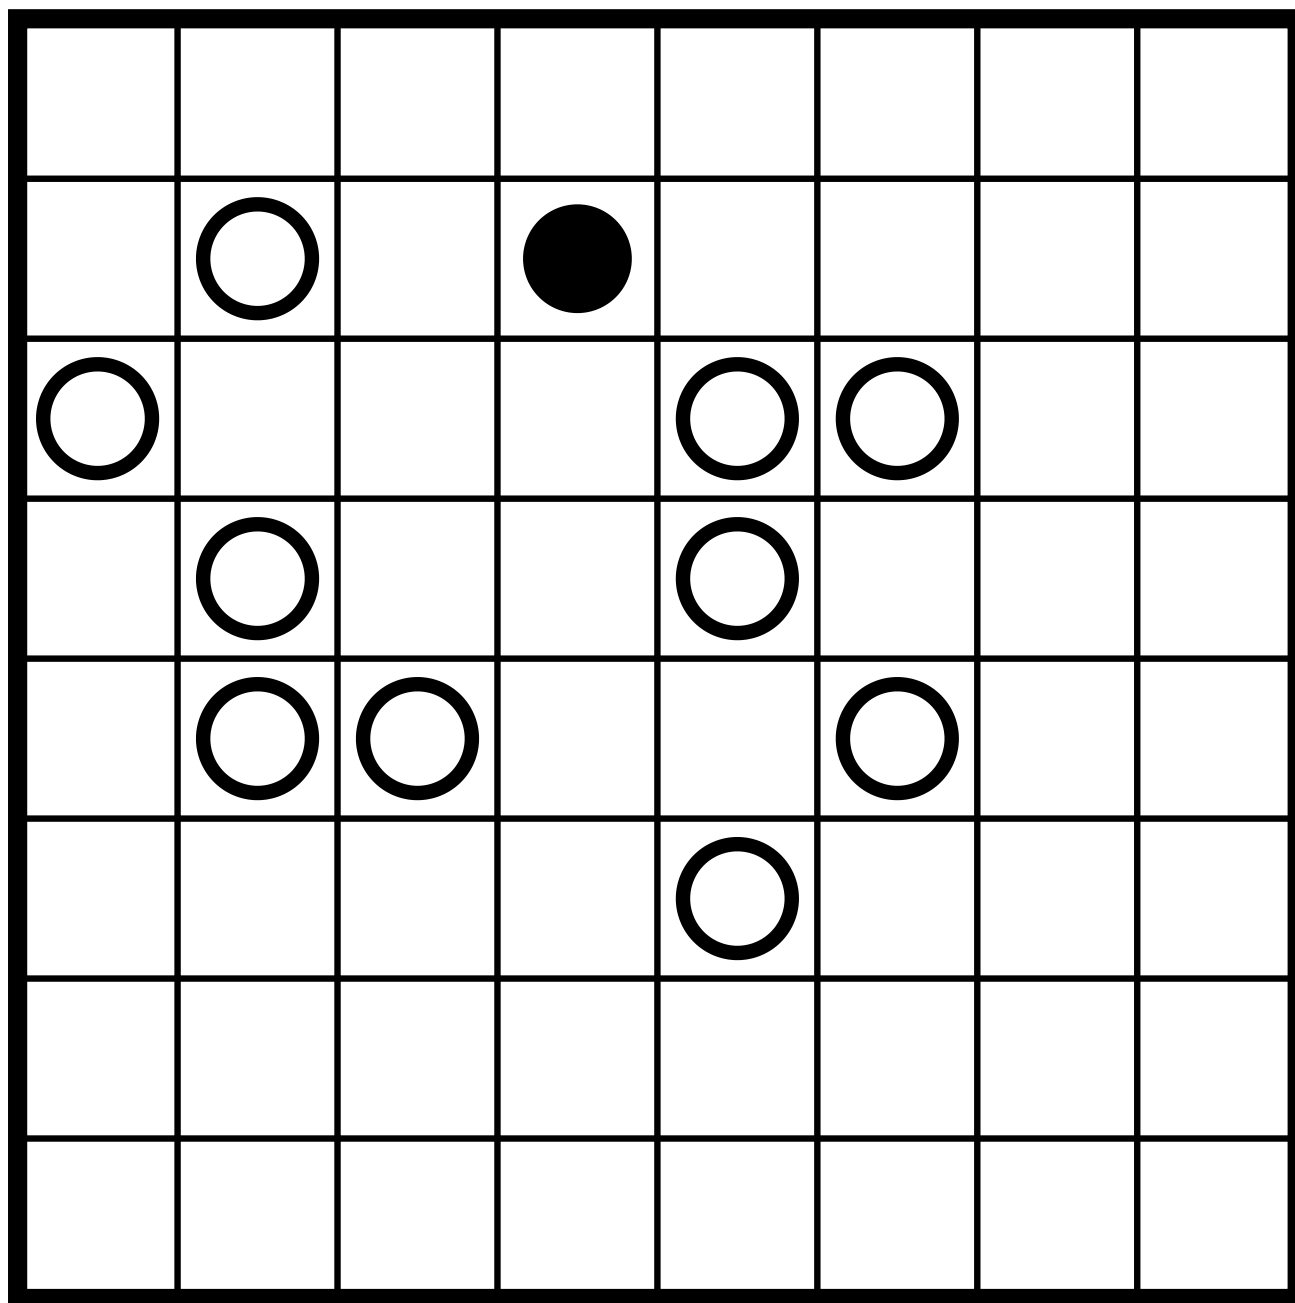

ITS ONLY SOLUTION

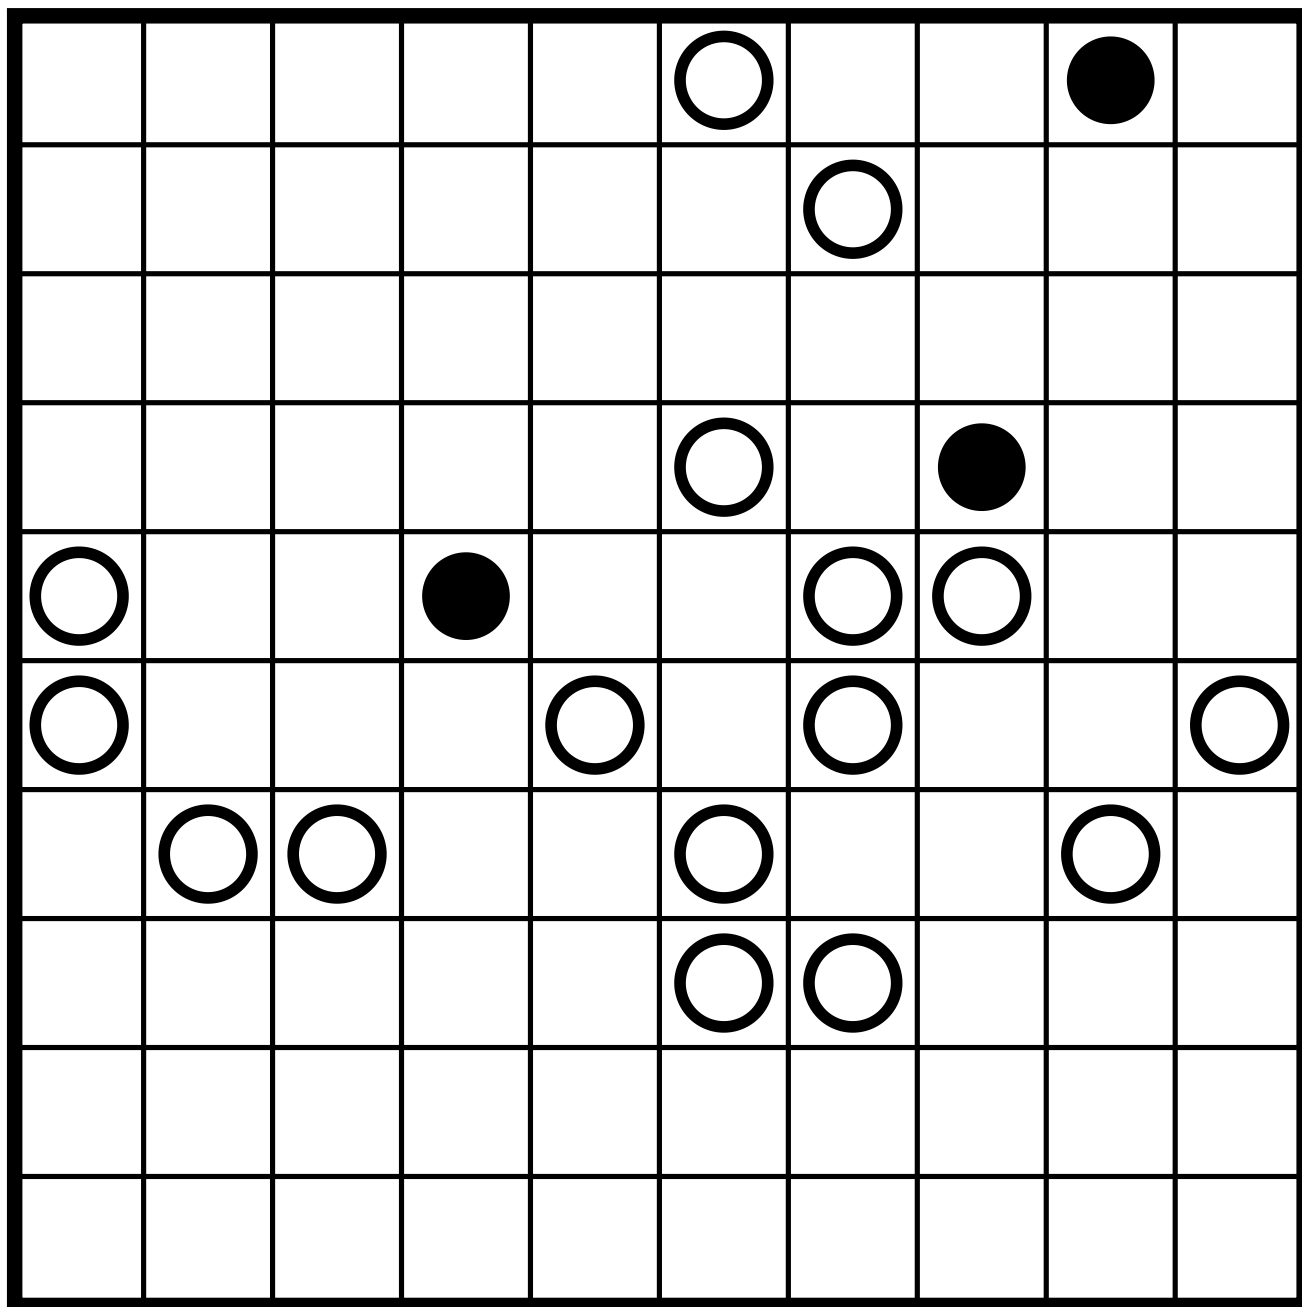

The puzzles run from easy to challenge in one line: 1 to 25 easy, 26 to 55 medium, 56 to 85 hard, 86 to 100 challenge. Solutions start on the page marked Solutions at the back.
